WORLD FISHING INDEX 1983

Some of the year's main articles

JANUARY/FEBRUARY

Conservation, p.3: Denmark's Captain Kirk challenges UK fishing regulations.

Processing, p.9: Norway carries out trials of gas packaging (controlled atmosphere pack) at the Finitro factory.

Lightweight radar, p.13: Mars Marine Systems in Britain introduce a 16-mile, lightweight radar for small boats with black and white display; Racal-Decca introduce a 'value for money' radar range.

Echosounders, p.14,17: Wesmar of Seattle introduce a touch-pad control colour echo sounder; Koden launch the CVS-8800 colour Chromoscope fish finder; four-page Product Survey of echosounders, world-wide, in tabular form.

West Germany, p. 29: A review of the country's fish trade shows a fall in demand, and German producers call for an export organisation; progress in aquaculture slow, but prospects good.

Technology, p.35/36: Trials of 'Clupea' m/w trawl, and report on Kevlar rope.

MARCH

Tuna, p.3: Hard times on US Pacific coast forces vessels to W Pacific grounds.

Sonars and netsounders, p.21: Product survey of equipments worldwide, with specifications, in tabular form.

Vessel completions, p.27-44: Annual survey of fishing vessels completed, worldwide, during the preceding year (1982). (Norwegian listings in April issue).

Spain, p.45: Spanish fisheries face the 1980's — a report by Alfonso Paz-Andrade, of Pescanova, Vigo.

Fuel economy, p.49: Brazil buys sail-assisted 53-footers from US yard; conference on sail-assistance reports up to 30 per cent fuel economy with sail.

APRIL

EEC, p.7: Spanish trawlers still fishing EEC waters under British flag; fishing agreement between EEC and Guinea.

Iceland, p.13: Minister of Fisheries Steingrimur Hermannsson optimistic over future of Icelandic fisheries; Iceland's whaling industry threatened by US lobby for boycott; stockfish makes a comeback.

Fishmeal, p.21: Success of Norwegian FPC ה' Kerala; Stord Bartz introduce energy-saving 'mechanical vapour recompression'.

Shipyards, p.34: Ex-German factory trawler converted for Seattle owners as *Golden Alaska*; Martinac yard to build big trawlers for Alaska pollack fishery.

Vessel completions, p.39: Norwegian yards' fishing vessel output listed.

MAY

Spain, p.5: Spain's entry into the EEC still obstructed by fears of her fishing capacity in EEC waters; troubles with France in the Bay of Biscay continue.

EEC, p.7: Britain seeks views of industry on Common Fishery Policy; Portugal seeks quotas in EEC waters.

Fish farming, p.9: Second International Fish Farming Exhibition and Conference at Brighton.

Propulsion, p.18: Design features of new Perkins engines to improve fuel economy; Mirrlees Blackstone introduce five and nine-cylinder versions of ESL; Rolls-Royce launch a V-12 unit of 720hp; Gardner turbocharge the LX series; Volvo Penta announce the TAMD range; Hundested modernise the 427-FOT.

Nav-aids, p.50: Loran C product survey.

JUNE

Whaling, p.3: The Japanese view.

Shellfish, p.5: Dublin shellfish conference report.

Australia, p.5: 200-mile EEZ 'disappointing'; type of nephrops discovered.

Ship review, p.19: *Harvest Elita* fresh fish trawler for Cape Town.

Japan, p.23: Furuno acoustic link with tuna skiff sonar; Koden colour sounder.

Propulsion, p.31-40: Diesel engine survey, 150-500hp.

JULY

Fish farming, p.8: Baader machines for processing farmed fish; Shellfish Association of GB conference report.

Spain, p.10: Spain plans for life in the EEC — report by Secretary of Fisheries Miguel Oliver; Rodman GRP boats sold worldwide; Spanish yards build tunaboats; Hermasa's success with canning machinery; World Fishing negotiates for an 'Exposicion Mundial de la Pesca' in 1985.

Refrigeration, p.21; Frigoscandia's 40 years of frozen fish; the Modified Atmosphere Pack — report from Torry; combination RSW system from USA; Ziegra chip or block ice plant.

Industry, p.31: Cosalt of Grimsby take over Chatham Dockyard ropewalk.

World Fishing Exhibition, p.33: Better than ever, says World Fishing report.

AUGUST

Product enhancement, p.3: Comment — how new attitudes to fish and shellfish utilisation could improve catch economics; Torry Research Station report on new products under development.

Processing, p.6,7: East German machinery to fillet Antarctic species; machines to peel shrimp; p.13: Danes develop peeling process for krill.

Crab, p.15: Better use of an under-utilised resource by mechanised peeling — two systems reviewed.

Fuel economy, p.23: Fuel monitor saves 25 per cent of tunaboat's fuel; electro-trawling improves beam trawler consumption by 30 per cent.

Research & Development, p.31: French yard experiments with modified Flettner 'rotating sail' propulsion.

Fishing gear, p.36: Lining systems from France and Ireland.

SEPTEMBER

Safety at Sea, p.6-10: What you need to know about EPIRBS and satellite-aided SAR; false alarms; new homing receiver for EPIRBs; mini-EPIRBs for fishing boats.

Stability, p.12,13: American designer's view on safer hull designs; a new 'stability indicator'.

Worldwide, p.32,3: Jamaica's import-export trade gap; 'encouraging results' in Sri Lanka; Spain signs agreement with Morocco; Canada trims purse seine fleet.

OCTOBER

Exhibitions, p.3: Official announcement of Exposicion Mundial de la Pesca, in Vigo, September 1985; preview of Fish Expo 83, Seattle; report of Salon de la Pêche, Nantes, France.

Africa, p.11-15: Morocco — new deal with Spain gives four-year breathing space; Moroccan fisheries reviewed; potential of Lake Victoria.

Worldwide, p.23: Mexican anchovy move north.

NOVEMBER

Scandinavia, p.6: B & W Alphatronic economy system; Frigoscandia's modular freezer; new Skanti R/T; Simrad sonars for the 1980's; Scanmar Catch Control; Trio Nexo graders.

Processing, p.16: Bead Engineering crab meat separator gives 20 per cent more yield.

Insurance and salvage, p.18-22: New salvage techniques cut insurance claims; advice on towage and salvage.

Finance, p.23: Financing development projects.

Shipyards, p.25: New 58m tunaboat from Marco; Dashwood build shrimpers for Guina.

Fish farming, p.28: S American expertise for Indian shrimp farms.

Middle East, p.30: Iran fleet's 1300-boat boost.

Partnerships and projects, p.31: News of joint ventures and investment worldwide.

Antarctic, p.33: Australia to exploit Antarctic Territory.

Propulsion, p.37: New Cummins for medium range.

DECEMBER

Asian/Pacific region, p.4-9: The impact of 'Infofish'; catches and potentials; fisheries of Singapore Part 1; news round-up by countries.

Electronics, p.11: Bill Maconachie talks about Navtex; **p.26** 'four-in-one' navigation system.

Fish farming, p.13: Spain urges investment in Mediterranean coast aquaculture.

Exhibitions, p.14-17: Fish Expo 83 report.
